

MITHUN KUMAR N

Junior QA Engineer

+91 8903567316 | mithunnatraj2@gmail.com | Karur, Tamil Nadu | [LinkedIn](#) | [Portfolio](#) | [Trailhead](#)

PROFESSIONAL SUMMARY

Junior QA Engineer and Salesforce Developer with experience in manual and automated testing, API validation, defect management, and Salesforce CRM development. Skilled in Playwright, Postman, JIRA, BDD (Gherkin/Cucumber), Apex, SOQL, and Lightning Web Components (LWC). Adept at collaborating in Agile/Scrum environments to deliver reliable, high-quality software across web platforms.

TECHNICAL SKILLS

Testing Types: Functional, Regression, Smoke, Sanity, UAT, API Testing, End-to-End (E2E), Visual Regression, Cross-Browser Testing

Testing Tools: JIRA, Postman, Playwright, Cucumber, Gherkin, BDD Framework

SDLC / STLC: Software Development Life Cycle (SDLC), Software Testing Life Cycle (STLC), Agile, Scrum

Test Artifacts: Test Plan, Test Cases, Test Scripts, Test Summary Report, Requirements Traceability Matrix (RTM)

Salesforce: Apex, SOQL, Lightning Web Components (LWC), Salesforce CRM, Process Builder, Workflow Automation, Custom Objects, Validation Rules, Role Hierarchy, Profiles, Permission Sets

Programming: JavaScript, SQL, HTML5, CSS3, Bootstrap, Git, Unix/Linux

Platforms: IBM Cloud, Web Applications, Google Sheets (ChartApps)

WORK EXPERIENCE

Junior QA Engineer | Objectways Technologies

Mar 2024 – Present

- Performed functional, regression, smoke, sanity, and API testing on ChartApps (a Google Sheets-based no-code dashboard builder) and an Internal Project Management Tool, covering charts, filters, task workflows, and RBAC permissions.
- Designed and maintained test cases, test plans, and RTM aligned with user stories and acceptance criteria; logged and tracked defects end-to-end in JIRA with root cause analysis.
- Conducted API testing using Postman to validate REST endpoints, request/response payloads, HTTP status codes, authentication, and data integrity.
- Automated E2E and regression test suites for the Internal Project Management Tool using Playwright (JavaScript); performed cross-browser testing across Chromium, Firefox, and WebKit.
- Implemented visual regression testing using Playwright screenshot comparisons to catch unintended UI changes between releases.
- Contributed to BDD by authoring Gherkin feature files and acceptance criteria using the Cucumber framework for both ChartApps and the Internal Project Management Tool.
- Participated in Agile/Scrum ceremonies including sprint planning and retrospectives; prepared test summary reports each release cycle.
- Validated notification triggers, status transitions, audit logs, and real-time data sync across both projects through structured E2E testing.

Programmer Analyst Trainee | Cognizant Technology Solutions

Oct 2023 – Dec 2023

- Developed Salesforce CRM applications using Apex classes and triggers, SOQL queries, and Lightning Web Components (LWC) to deliver scalable business solutions.
- Configured Process Builder, Workflow Rules, custom objects, fields, page layouts, and validation rules to meet client-specific business requirements.
- Administered Salesforce security model including role hierarchy, profiles, and permission sets to control user access and enforce data visibility.
- Built and tested responsive web interfaces using HTML5, CSS3, JavaScript, and Bootstrap; performed data validation using SOQL and MySQL.
- Debugged Salesforce workflows, Apex logic, and UI components; completed the Salesforce Developer Catalyst Plus certification program.

EDUCATION

B.E. – Electronics and Communication Engineering

Nov 2023

Karpagam Institute of Technology, Coimbatore, Tamil Nadu | CGPA: 7.54

PROJECTS

ChartApps – No-Code Dashboard Builder | Objectways Technologies

Mar 2024 – Present

- Performed functional, regression, and UI testing on a Google Sheets-based dashboard platform; validated real-time data sync, chart rendering, and filter logic across browsers using Playwright automation.
- Authored BDD feature files in Gherkin using Cucumber; reported and tracked UI and data inconsistencies in JIRA with post-fix verification.

Internal Project Management Tool | Objectways Technologies

Mar 2024 – Present

- Executed E2E testing of task workflows, RBAC permissions, and dashboard reporting using Playwright; automated regression suite and managed all defects through JIRA.
- Wrote Gherkin feature files using Cucumber BDD framework; verified notification triggers, status transitions, and audit logs for task lifecycle management.

Plasma Donor Web Application | Karpagam Institute of Technology

2022

- Built and tested a donation management web app using HTML, CSS, JavaScript, Python, and IBM Cloud; authored test cases for form validation and cloud integration.

Rescue Team Health Monitoring System | Smart India Hackathon Finalist

2022

- Designed a LoRa-based health and location monitoring prototype; contributed to E2E testing of the real-time web and mobile dashboard.

CERTIFICATIONS & ACHIEVEMENTS

- Salesforce Developer Catalyst Plus – Apex, LWC, CRM Configuration & Best Practices (Cognizant, 2023)
- Cognizant ReCogNurize 2.0 – Salesforce Shaolin Certification (2022)
- Cybersecurity Analyst Job Simulation – TCS & Forage (2024)
- JavaScript Algorithms and Data Structures – freeCodeCamp (2021)
- Responsive Web Design – freeCodeCamp (2021)
- Cybersecurity Essentials – Cisco Networking Academy (2021)
- Finalist – Smart India Hackathon 2022
- Participant – Google Developer Group Cloud Community Day, Coimbatore (2022)
